💼 Experience

Frontend & WordPress Development (Freelance / Self Projects)

- Built responsive web apps using HTML5, CSS3, JavaScript (ES6+), React.js, and WordPress.
- Designed user-friendly layouts with Bootstrap/Tailwind CSS and integrated REST APIs (CRUD operations).
- Delivered small projects (portfolios, business websites, landing pages, blogs, and WordPress sites) with SEO optimization.

Office Management (Practical Experience)

- Managed office-related documentation, data entry, and file organization.
- Created reports and maintained records using MS Office and Google Workspace.
- Assisted in scheduling, task coordination, and basic administrative support.

SEO Projects (Self Learning & Freelance Work)

- Performed keyword research and optimized website content.
- Improved on-page SEO (meta tags, headings, image optimization).
- Practiced off-page SEO including backlinks and social media promotions.
